## Defib Store recognise the importance of a high-quality, secure cabinet to store a public access defibrillator

Part of the CE-Tek group, a specialist enclosure manufacturer for over 30 years, Defib Store has utilised CE-Tek's expertise to develop a range of outdoor, robust defibrillator cabinets for all environments. Our industry leading range of weatherproof cabinets ensure defibrillators can be secure and always accessible

The premium Defib Store 2000/3000 series is available in mild or stainless steel

Defib Store 2000/3000 features include:

Water and dust tight. IP66 rated to withstand even the harshest of weather conditions

Plug and Play thermostatically controlled heater to ensure the AED is always within it's working temperature range

Marine grade stainless steel keypad lock; tested with salt spray for 1,000 hours, ensures the lock remains fully functional in all weather conditions

Permanently lit Plug and Play LED light indicating power to the cabinet. Plus making maintenance checks quick and easy

Equipped with a breather drain to prevent condensation

Secure viewing window ensures AED status indicator is visible externally at all times
